

Question 1 Correct

The Scrum Team feels that Sprint Retrospective is a waste of time, and asks that it's done for every 2 sprints, instead of every Sprint. What should the Scrum Master do in this situation? Choose the best answer.

☐ The Scrum Master agrees with the team's request, since they are a self-managing team.

Your answer is correct

☒ Coach the team members on the importance of Sprint Retrospective, and help the Scrum Team establish proper ways to have a productive Sprint Retrospective.

☐ Report the Scrum Team to the Management as they violate the Scrum rule.

☐ Ask the Product Owner to persuade the rest of the team to keep doing Sprint Retrospective every Sprint.

S

Question 2 Correct

During a Sprint, a Developer learns that the team will not be able to finish all the work in the Sprint Backlog by the end of the Sprint. Who should be involved in adjusting the scope of the Sprint? Choose the best answer.

Your answer is correct

☒ The Product Owner & Developers.

☐ The Product Owner and Stakeholders.

☐ The Developers and Stakeholders.

☐ The Scrum Master & Developers.

Question 3 Incorrect

When should the members of a Scrum Team change? Choose the best answer.

☐ As needed. While making sure performance and productivity stays the same.

☐ At least every four Sprints, so product knowledge is properly shared.

Your answer is incorrect

☒ Never. A Scrum Team should always stay the same to maintain commitment and focus.

Correct answer

☐ As needed. By taking into account short-term decrease in performance.

Overall explanation

At certain times, changes in a Scrum Team may need to happen. When they do, any situation change would likely to impact the Scrum Team's performance and productivity as they adjust themselves to the new situation.

✓ Question 4 Correct

What is the timebox for the Sprint Planning?

Choose the best answer.

☐ Up to four hours.

☐ As long as it needs to complete the Sprint Backlog.

Your answer is correct

☒ Up eight hours for a one-month Sprint. For shorter Sprints, it's usually shorter.

☐ Up to eight hours.

✓ Question 5 Correct

During Sprint Review, a Product Backlog item selected for the Sprint has not been completed according to the Definition of Done. What should happen in this situation?

Choose the best answer.

☐ The item is broken down into two parts. The team then sets the completed part to done, and the incomplete part is returned to the Product Backlog.

☐ The Scrum Team asks for confirmation from the stakeholders. If they accept it, then the item will be set to done.

Your answer is correct

☒ The item is not included as part of the Increment, and will be returned to the Product Backlog.

✓ Question 6 Correct

The Developers need to have the skills to:
Choose the best answer.

☐ Properly explain their work to the testers.

Your answer is correct

☒ Turn the Product Backlog items into working product features.

☐ Complete all development work, up until unit testing.

☐ Complete all their work within the time and budget set by the Product Owner

✓ Question 7 Correct

In Scrum, who has the authority to cancel the Sprint?
Choose the best answer.

Your answer is correct

☒ Product Owner.

☐ Developers.

☐ Scrum Master.

☐ The Stakeholders.

✓ Question 8 Correct

The duration of the Sprint should be:
Choose the best answer.

☐ Short enough to keep the risk at a reasonable level.

☐ No more than one month.

☐ Short enough to frequently learn about the market's response.

Your answer is correct

✓ All answers are correct.

✓ Question 9 Correct

Which one of these statements best describes Scrum?
Choose the best answer.

☐ A scientifically proven method to build software products.

☐ An end-to-end methodology that governs the steps in software development.

Your answer is correct

✓ A lightweight framework that helps create valuable solutions to complex problems.

☐ A popular playbook that provide the structure for software development practices.

✓ Question 10 Correct

True or False: In a Sprint Planning, the Developers will pick all the Product Backlog items needed to make the Product Owner and Stakeholders happy.

☐ TRUE

Your answer is correct

✓ FALSE

✓ Question 11 Correct

Who attends the Sprint Retrospective?

Choose the best answer.

☐ The Scrum Master & the Developers. The Product Owner may join if they have time.

Your answer is correct

☒ The Scrum Team.

☐ The Scrum Team & Stakeholders.

☐ The Developers. Since they're the ones doing the development work.

✓ Question 12 Correct

Which method is most relevant for a Scrum Team to produce valuable Increments?

Choose the best answer.

☐ A Scrum Team should always deliver the product within an agreed time and budget.

☐ Each Developer is assigned to different tasks depending on their skills.

☐ A Scrum Team should be accountable in developing the product features, and pass on any specialised testing to another team.

Your answer is correct

☒ A Scrum Team has all the skills needed to develop all aspects of fully functioning products.

✓ Question 13 Correct

True or False: The main purpose of a Sprint is to create a working and valuable product Increment by the end of the Sprint.

☐ FALSE

Your answer is correct

☒ TRUE

Overall explanation
Sprints are the heartbeat of Scrum, where product ideas are turned into real product Increments that have value.

✓ Question 14 Correct

True or False: An Integration Sprint is required after a few Sprints, to integrate all previous Increments before being released.

Your answer is correct

☒ FALSE

☐ TRUE

Overall explanation
There is no such thing as Integration Sprint in Scrum.

❌ Question 15 Incorrect

During Sprint Planning, the Developers feel that the selected workload is greater than their capacity. Which two actions make the most sense to do? Choose the best two answers.

Your selection is correct

☒ The Developers let the Product Owner know, and start the Sprint. They then discuss on the Sprint's scope as more information is known.

☐ The Scrum Master should contribute as a Developer to help achieve the Sprint Goal.

Correct selection

☐ Remove or swap selected Product Backlog items.

☐ Keep the selected work as it is, so the Developers can challenge themselves to be more efficient.

Overall explanation
In a Sprint Planning, the Developers choose the items they want to work on, through a discussion with the Product Owner. As they Sprint progresses, they can clarify or renegotiate the Sprint's scope with the Product Owner.

✓ Question 16 Correct ^

Which statement best describes the Product Backlog?
Choose the best answer.

☐ It contains detailed product development plan for the next quarter.

☐ It's a list of products that support the organisations's goals.

Your answer is correct

☒ It's a list of upcoming work needed to improve the product.

☐ It's owned by the Scrum Team.

✓ Question 17 Correct ^

True or False: Sprint Retrospective is attended by the Whole Scrum Team.

Your answer is correct

☒ TRUE

☐ FALSE

✓ Question 18 Correct ^

A certain Developer is having regular conflicts with the rest of the Scrum Team, which impacts the overall team performance. If needed, who is responsible for removing the Developer?
Choose the best answer.

☐ The Scrum Master, as they remove impediments.

☐ The Product Owner.

Your answer is correct

☒ The Scrum Team.

☐ The stakeholders.

✓ Question 19 Correct ^

True or false: When multiple Scrum Teams are working on the same product, all teams should be sharing the same Product Backlog.

Your answer is correct

☒ TRUE

☐ FALSE

✓ Question 20 Correct ^

Which one of these is required in Scrum?
Choose the best answer.

☐ User Stories.

Your answer is correct

☒ Sprint Review.

☐ Story point estimation.

☐ Release Planning.

✓ Question 21 Correct ^

Which one of these is not part of the Scrum Values?
Choose the best answer.

Your answer is correct

☒ Transparency.

☐ Focus.

☐ Commitment.

☐ Respect.

☐ Courage.

✓ Question 22 Correct ^

Who's accountable for the Product Backlog?
Choose the best answer.

☐ The Scrum Master.

☐ The Scrum Team.

☐ The Developers.

Your answer is correct

☒ The Product Owner.

✓ Question 23 Correct

How does the Scrum Master serve the Product Owner?
Choose the best answer.

Your answer is correct

☒ Help the Product Owner maintain a clear and concise Product Backlog.

☐ Proofread the Product Backlog.

☐ To become the communication bridge between the Product Owner and the Developers.

☐ Help write the user stories.

✓ Question 24 Correct

During Daily Scrum, the Developers identify an issue that holds them back from reaching the Sprint Goal, and this issue would need a longer discussion to resolve. What should happen in this situation?
Choose the best answer.

☐ The Developers advise the Product Owner to cancel the Sprint.

☐ Have the Daily Scrum run past the timebox to properly solve the issue.

Your answer is correct

☒ Identify the issue, complete the Daily Scrum within the timebox, and immediately schedule the required discussion with relevant people to determine next actions to address the issue. The Developers may also ask the Scrum Master for support.

☐ The Developers ignore the issue for now, and will consider it next Sprint.

✓ Question 25 Correct

Which of these meetings are considered feedback loops?
Choose the best three answers.

☐ Product Backlog refinement.

☐ Sprint Release.

Your selection is correct

☒ Daily Scrum.

Your selection is correct

☒ Sprint Retrospective.

Your selection is correct

☒ Sprint Review.

✓ Question 26 Correct

True or False: Sprint Review is not the only time a Scrum Team can deliver the Increment to stakeholders.

Your answer is correct

☒ TRUE

☐ FALSE

✓ Question 27 Correct

True or False: Scrum is based on realism and lean thinking.

Your answer is correct

☒ FALSE

☐ TRUE

✓ Question 28 Correct

During a Sprint, when new tasks or information is known, when can they be added to the Sprint Backlog?
Choose the best answer.

☐ When it's discussed in the Sprint Planning.

☐ During the Daily Scrum.

Your answer is correct

☒ As soon as it's known.

☐ After it's been reviewed and approved by the Scrum Master.

✓ Question 29 Correct

What does a Scrum Master do during Sprint Retrospective?
Choose the best answer.

Your answer is correct

☒ Actively facilitate as needed, and also participate in the event as a team member.

☐ Summarise the team's performance from last Sprint

☐ Take notes of all the team's challenges and pass them on to Management.

☐ Lead the discussion.

Question 30 Incorrect

When does a Sprint end?
Choose the best answer.

☐ When the Product Owner is happy with the Developers' work.

Correct answer

☐ When the timebox expires.

Your answer is incorrect

☒ When the Product Backlog items meet the Definition of Done.

☐ When the Product Backlog backlog need to be refined.

☐ When the Developers run out of work.

Question 31 Incorrect

True or False: It's mandatory to use story points to estimate the size of Product Backlog items.

Your answer is incorrect

☒ TRUE

Correct answer

☐ FALSE

Overall explanation
The Scrum Guide recognises the importance of sizing Product Backlog items to better understand the effort needed to build them. How it's done is entirely up to the Scrum Team.

Question 32 Correct

True or false: The Developers can only interact with the Product Owner during Sprint Planning and Sprint Review.

☐ TRUE

Your answer is correct

☒ FALSE

Question 33 Correct

Which one of these is not part of the Scrum Events?
Choose the best answer.

☐ Daily Scrum.

Your answer is correct

☒ Sprint Refinement.

✔ Question 34 Correct

When does a Developer become an exclusive owner of a Sprint Backlog Item?
Choose the best answer.

☐ When it's being allocated in a Sprint Planning.

Your answer is correct

✔ Never. A Sprint Backlog item can be worked on by a single Developer, however, the Sprint Backlog is owned and maintained collectively by the Developers.

☐ As soon as they complete their previous work.

☐ In a Daily Scrum, when they select the product they want to work on.

☐ When the Scrum Master assigns the item to the Developer based on their expertise.

✔ Question 35 Correct

A new product opportunity has been identified, and would impact the priority of features in the upcoming product Increment. Who is responsible for ordering the priority of the product's features in the Product Backlog?

Choose the best answer.

☐ Scrum Master.

☐ Stakeholders.

☐ End users.

Your answer is correct

✔ Product Owner.

✔ Question 36 Correct

During a Sprint, a company director approaches the Developers, and asks to add an "urgent" piece of functionality to the product. What should the Developers do?

Choose the best answer.

Your answer is correct

✔ Let other members of the Scrum Team know, so they can collectively decide on what to do.

☐ Add the functionality to the Sprint Backlog.

☐ Swap an equal-sized item from the Sprint Backlog with the newly requested item.

☐ Have a discussion with the director to capture the requirement and estimate the changes.

Question 37 Correct

Which one of these is a relevant topic to discuss during Sprint Retrospective?
Choose the best answer.

☐ To plan the work for the coming Sprint.

Your answer is correct

☒ To find process improvements to increase the team's quality and effectiveness.

☐ To inspect the Increment and determine future adjustments.

☐ To inspect the team's progress against the Sprint Goal.

Question 38 Incorrect

A Product Owner asks the Scrum Master on advice to estimate the size of Product Backlog items.
What advice should the Scrum Master give?
Choose the best answer.

Your answer is incorrect

☒ The Product Owner review and approve the estimates done by Developers.

Correct answer

☐ Estimates are made by those who do the work.

☐ Estimates are for beginners.

☐ Estimates are best done using relative sizing.

☐ Estimates must be defined in story points.

Question 39 Correct

Which one of the following is not part of the empirical Scrum pillars?
Choose the best answer.

Your answer is correct

☒ Openness.

☐ Inspection.

☐ Adaptation.

Question 40 Correct

True or False: A Sprint must always continue and cannot be cancelled.

Your answer is correct

☒ FALSE

☐ TRUE

Question 41 Incorrect

Who attends the Sprint Retrospective?
Choose the best answer.

Correct answer

☐ The Scrum Team.

Your answer is incorrect

☒ The Scrum Team & Stakeholders.

☐ Scrum Master the Developers. The Product Owner may join if they have time.

☐ The Developers. Since they're the ones doing the development work.

Question 42 Correct

How much time does a Scrum Team have after completing a Sprint, to prepare for next Sprint?
Choose the best answer.

☐ Up to 10% of the Sprint's duration.

Your answer is correct

☒ None. A new Sprint starts immediately after the end of the previous Sprint.

☐ As much as it needs to refine the Product Backlog item.

☐ Up to eight hours for a one-month Sprint. For shorter Sprint, it's usually shorter

Question 43 Correct

What is the timebox for a Sprint Retrospective?
Choose the best answer.

☐ At least four hours.

Your answer is correct

☒ Up to three hours for a one-month Sprint. For shorter Sprints, it's usually shorter.

☐ 15 minutes.

☐ Up to three hours.

✓ Question 44 Correct ^

During Sprint Review, new ideas to improve the product Increment is discovered. Which one of these statements is valid for the situation?
Choose the best answer.

Your answer is correct

☒ Any ideas that are considered relevant may be added to the Product Backlog.

☐ The Scrum Master write down all ideas and discuss with the stakeholders after Sprint Review.

☐ The Sprint Review is a working session, so the Developers immediately implement the new changes in the meeting.

☐ The stakeholders add the new opportunities to the Product Backlog.

! Question 45 Incorrect ^

In Scrum, what are the responsibilities of testers?
Choose the best two answers.

☐ Report issues found in the Increment.

Your selection is correct

☒ Scrum has no "tester" role.

Correct selection

☐ Scrum Team consists of the Developers, who are responsible for maintaining quality, by complying with the Definition of Done.

! Question 46 Incorrect ^

If a Scrum Team wants to capture non-functional requirements, what is a good way to do it?
Choose the best answer.

Your answer is incorrect

☒ Trust that the Developers would know what to do and automatically add the feature to the Increment.

Correct answer

☐ Add them into the Product Backlog to be considered for development.

☐ The Developers actively remind each other in the Daily Scrum.

☐ Create a separate list of non-functional requirements, and include it in the Sprint Backlog.

✓ Question 47 Correct ^

Who creates the Definition of Done?
Choose the best answer.

☐ The release manager.

Your answer is correct

✓ If a Definition of Done already exists in the company, the Scrum Team must follow it as a minimum. If not, the Scrum Team creates one.

☐ The company, as part of it's quality standards.

✓ Question 48 Correct ^

When does the next Sprint begin?
Choose the best answer.

☐ Immediately after the end of Sprint Planning.

☐ When the management approves the project.

Your answer is correct

✓ Immediately after the end of last Sprint.

☐ When all Product Backlog Items have been refined.

✓ Question 49 Correct ^

During Sprint Planning, the Product Owner and Developers could not reach a clear understanding about a few important Product Backlog items. Because of this, the Developers could not forecast on the items they can fit into the coming Sprint. However, they were able to agree on a Sprint Goal. Which of the following two actions should the Scrum Master support?
Choose the best two answers.

☐ Stop the Sprint Planning. Have everyone study and analyse the Product Backlog items, and start the Sprint Planning again when everyone is ready.

☐ Continue the Sprint Planning past the timebox, until everyone reach a common understanding.

Your selection is correct

✓ Forecast on items that supports the Sprint Goal and start putting together the Sprint Backlog. Complete the Sprint Planning and start development work. As the Sprint progresses, continue to refine your work and add new information as they are learned.

☐ Put the Sprint on hold. Deliver a Scrum training for the team, and resume the Sprint.

Your selection is correct

✓ Reflect on the situation during Sprint Retrospective, to find ways to handle similar situations in the future.

✓ Question 50 Correct ^

What is the timebox for a Sprint Review?
Choose the best answer.

☐ 15 minutes.

☐ Up to four hours.

Your answer is correct

✓ Up to four hours for a one-month Sprint. For shorter Sprints it's usually shorter.

✓ Question 51 Correct ^

True or False: A Sprint Planning should only be attended by the Scrum Team, and no one else.

☐ TRUE

Your answer is correct

✓ FALSE

✓ Question 52 Correct ^

Who updates the Sprint Backlog during a Sprint?
Choose the best answer.

☐ The Scrum Master.

Your answer is correct

✓ The Developers.

☐ The Product Owner.

☐ The Scrum Team.

✔ Question 53 Correct ^

Which Scrum Events below are timeboxed?
Choose the best two answers.

☐ Release Planning.

Your selection is correct

☒ Daily Scrum.

☐ Sprint Release.

☐ Product Backlog refinement.

Your selection is correct

☒ Sprint Retrospective.

✔ Question 54 Correct ^

Which of these statements are true regarding the Daily Scrum?
Choose the best three answers.

Your selection is correct

☒ Attended by the Developers.

☐ The Product Owner collects progress report from the Developers.

Your selection is correct

☒ It runs for up to 15 minutes.

☐ The lead Developer facilitates the meeting.

Your selection is correct

☒ It's held at the same time and place to reduce complexity.

✔ Question 55 Correct ^

Within Scrum, what is the role of company management?
Choose the best answer.

☐ Help monitor the Scrum Team's performance.

☐ Regularly conduct performance review for individual team members.

Your answer is correct

☒ Provide the Product Owner with relevant business information and system support to create high value products. Also support the Scrum Master so they can bring positive changes inline with the Scrum concepts.

☐ Receive regular reports on the Scrum Team's performance.

✓ Question 56 Correct ^

A Scrum Master is accountable for:
Choose the best answer.

☐ Generating Sprint burndown report.

☐ Create budget reports.

Your answer is correct

✓ **Improve the team's effectiveness through the understanding and practice of Scrum.**

☐ Making sure the Developers properly update the Sprint Backlog.

✓ Question 57 Correct ^

True or False: In Scrum, the Project Manager works with the Product Owner to actively track the Scrum Team's progress, and report to the stakeholders.

☐ TRUE

Your answer is correct

✓ **FALSE**

✓ Question 58 Correct ^

When does a Sprint Backlog get created?
Choose the best answer.

☐ During Daily Scrum.

☐ During Sprint Retrospective.

☐ Immediately after Sprint Planning.

Your answer is correct

✓ **During Sprint Planning.**

! Question 59 Incorrect ^

Burndown charts are used to show a Sprint's progress visually. What information does the chart show?
Choose the best answer.

Your answer is incorrect

✗ **How many Product Backlog items have each team member completed.**

Correct answer

☐ **Remaining work within the duration Sprint.**

☐ The total cost spent for product development.

☐ The number of product features completed.

✓ Question 60 Correct

Which of the following are responsibilities of the Developers?
Choose the best two answers.

☐ Refine large Product Backlog items into more precise user stories.

Your selection is correct

☒ Choose the Product Backlog items to be worked on in a Sprint.

Your selection is correct

☒ Decompose chosen Product Backlog items into smaller tasks during Sprint Planning.

☐ Log the effort spent so far for each Product Backlog item.

✓ Question 61 Correct

How does the Product Owner order the priority of Product Backlog items?
Choose the best answer.

Your answer is correct

☒ By whatever method the Product Owner sees fit.

☐ By size. The smallest items should be done first.

☐ By potential return. Items that bring most profit is always prioritised.

☐ By risk. Items with the highest risk should have low priority.

✓ Question 62 Correct

True or False: Only the Product Owner meets with stakeholders, other Scrum Team members don't.

☐ TRUE

Your answer is correct

☒ FALSE

✓ Question 63 Correct

True or False: At the end of every Sprint, the Increment must be released into production.

☐ TRUE

Your answer is correct

☒ FALSE

Question 64 Incorrect

During Sprint Retrospective, the Scrum Team discovers a few important process improvements. What needs to happen in this situation?
Choose the best answer.

☐ There should be no change to any processes when everything runs just fine.

Correct answer

☐ The improvements may be added to the Sprint Backlog to be addressed next Sprint.

☐ The team adds all improvements to the Sprint Backlog.

Your answer is incorrect

☒ The Scrum Master picks the most relevant improvement for the team to apply next Sprint.

Question 65 Correct

What is the size of a Scrum Team?
Choose the best answer.

☐ At least 3 people, so the team can produce valuable work.

☐ 3 - 9 people.

Your answer is correct

☒ Up to 10 people.

Question 66 Incorrect

In a Sprint, how much effort should the Developers spend for each Product Backlog item?
Choose the best answer.

☐ All the work from analysis until the documentation is written.

Correct answer

☐ Enough work so the item meets the Definition of Done.

Your answer is incorrect

☒ A required amount of development work and testing, so that a valuable Increment is created.

☐ Ideally 80% of their capacity, to allow proper time for release process to happen.

✓ Question 67 Correct ^

When can a Product Backlog item be considered complete?
Choose the best answer.

Your answer is correct

☒ When it meets the Definition of Done.

☐ At the end of the Sprint.

☐ When all code changes are done with more than 95% testing complete.

☐ When the Product Owner and Stakeholders approve the feature in Sprint Review

✓ Question 68 Correct ^

What should the Scrum Master do during Daily Scrum?
Choose the best answer.

☐ Lead the discussion.

Your answer is correct

☒ Scrum Master does not have to attend the Daily Scrum. They just have to make sure it happens properly.

☐ Write down the discussions and report to Product Owner afterwards.

☐ Help update the Sprint Backlog.

✓ Question 69 Correct ^

What is the timebox for a Daily Scrum?
Choose the best answer.

☐ 15 minutes for a 10-person team. For smaller teams it's usually shorter.

☐ At least 15 minutes.

Your answer is correct

☒ 15 minutes.

! Question 70 Incorrect ^

Which of the following topics are covered during a Sprint Planning?
Choose the best two answers.

Correct selection

☐ What can be done this Sprint?

☐ Who will ensure the chosen work gets done?

Your selection is correct

☒ Why is this Sprint valuable?

✓ Question 71 Correct ^

What is the Product Owner's responsibility during Sprint Zero?
Choose the best answer.

☐ To clarify all requirements to the Scrum Team.

☐ To prepare the required infrastructure work before starting product development.

Your answer is correct

☒ There is no such thing as Sprint Zero in Scrum.

☐ Calculate the budget forecast to be presented to stakeholders.

✓ Question 72 Correct ^

Which statement best describes the Sprint Backlog?
Choose the best answer.

☐ It's owned by the Scrum Master.

☐ Its contents are valid for the lifetime of the product.

☐ It replaces the traditional functional and technical specification documents.

Your answer is correct

☒ It describes all the work needed to be done during a Sprint.

✓ Question 73 Correct ^

In a Sprint Planning, how much work should the Scrum Team prepare?
Choose the best answer.

☐ Just enough so everyone understands the system's architecture.

Your answer is correct

☒ Enough work so the team understands the main goal committed for the Sprint, the items they will work on, and a plan to develop the items.

☐ Everything about the Product Backlog items have to be 100% prepared and refined with detailed documentation on how to build each item.

☐ As much as the Product Owner needs to explain the Product Backlog to the team.

✓ Question 74 Correct

Which of these statements best describes what happens during Sprint Review?
Choose the best answer.

☐ The Scrum Team prepares presentation deck for the stakeholders.

Your answer is correct

☒ The Scrum Team and stakeholders review the Increment, and collaborate on future adjustments.

☐ While going through the Increment, the Sprint Review is also good place to discuss individual team member's performance.

☐ The stakeholders schedules high-priority improvements to be made next Sprint.

✓ Question 75 Correct

How do the Developers turn the Product Backlog items into an Increment?
Choose the best answer.

☐ The stakeholders advise the Developers to build the Increment in the shortest amount of time.

Your answer is correct

☒ The Developers decide between themselves on how to build the Increment.

☐ The lead Developer or engineer would direct the Developers on proper ways to do it.

☐ The Scrum Master actively supports the Developers in breaking down the items into tasks.

✓ Question 76 Correct

What does "timebox" mean for a Scrum Event?

☐ The event must take at least a certain amount of time.

☐ The event must happen before a set time.

☐ The event must repeat for a certain amount of time.

Your answer is correct

☒ The event can run up to a certain amount of time.

❌ Question 77 Incorrect

True or False: Every Scrum Team needs to have a Product Owner and a Scrum Master.

Your answer is incorrect

☒ FALSE

Correct answer

☐ TRUE

✔ Question 78 Correct

At times, the Scrum Team may need to update their Definition of Done. When is an appropriate time to do this?

Choose the best answer.

Your answer is correct

☒ During Sprint Retrospective.

☐ During Daily Scrum.

☐ Just after Sprint Review.

☐ Just before Sprint Planning.

✔ Question 79 Correct

When multiple Scrum Teams are working from the same Product Backlog, how should they choose the Product Backlog items to work on?

Choose the best answer.

☐ Each Scrum Team should maintain their own Product Backlog.

☐ The high-priority items should be worked on by the most senior team.

Your answer is correct

☒ The Developers in each team choose the items based on a discussion with the Product Owner.

☐ To reduce complexity, the Product Owner allocates the items to each team.

✔ Question 80 Correct

What activity should the Product Owner do just after the end of the current Sprint, and before starting the next Sprint?

Choose the best answer.

☐ They prepare the budget for the next Sprint.

Your answer is correct

☒ There is no such activity. The next Sprint starts immediately after the current Sprint.

☐ They refine the Product Backlog to prepare for the Sprint Planning.

☐ They work with the testers to make sure the Increment is of high quality.
