Question 27 of 30

What are three incorrect, untrue, or misleading statements about Scrum?

(choose the best three answers)

☐   **A.** Scrum is a framework for developing and sustaining complex products.

☑   **B.** Each component of Scrum serves a specific purpose and is essential to your ability to use Scrum to develop complex products.   ✖

☑   **C.** Scrum is a methodology where you can pick and choose which parts of Scrum you think will work for your environment.   ✔

☐   **D.** Scrum is a framework that eliminates complexity.   ✔

☐   **E.** Scrum is founded on empiricism and lean thinking.

☑   **F.** Scrum is like traditional processes but with self-organization to replace Project Managers.   ✔

ℹ   You did not select all available correct options.

Feedback
- Scrum is meant to be implemented as prescribed in the Scrum Guide. For example, the five events in the Scrum Guide are mandatory, each event has a specific purpose.
- Scrum does not eliminate the complexity that is inherent in delivering a product in today's world, instead it offers a framework for dealing with complexity. By regularly delivering Increments of value teams gain the ability to inspect and rapidly adapt based on the feedback received.
- Project Managers are not simply replaced by self-managing teams. Scrum is a framework for optimizing decision making based on the knowledge and experience of the entire team.
